WHAT IS SEXUAL VIOLENCE?

SEXUAL VIOLENCE IS ANY NON- CONSENSUAL SEXUAL ACT.

1 IN 5

Native American rape survivors who sought services in 2016, had one or more disabilities.

MORE THAN 60%

of crimes reported on Tribal Nations are sexual assault cases [2]

86%

of sexual assaults in NM are committed by someone the victim knows [2]

1 IN 2

Native women and 1 in 4 Native men are victims of sexual violence [2]

Rape among Native American adults is grossly under reported each year [2].

With the lack of data collection from NM tribal communities, CSVANW cannot convey an accurate assessment of sexual violence. The statistics provided are likely much higher based on the national average.

SEXUAL VIOLENCE IN TRIBAL COMMUNITIES

TYPES OF CHILD SEXUAL ABUSE

FONDLING | EXPOSING CHILDREN TO SEXUAL ACTS | OBSCENE PHONE CALLS/TEXTS/SOCIAL MEDIA | ANY SEXUAL CONTACT WITH A MINOR

50%

83%

of sexual violence against children are committed by family members [1]

MALES

are more likely to be abused as children than females [1]

CSVANW RECOMMENDATIONS

Increase education and outreach around childhood sexual abuse and prevention targeting schools, parents, guardians, and extended families

Advocate for more Sexual Assault Nurse Examiner (SANE) services in tribal communities

Increase the number of sexual violence advocates in tribal communities

Support increase in funding for Sexual Assault Services and Programs

Provide testimony at tribal consultation for comprehensive sexual assault services at all NM IHS facilities
